Subject: **Sunrise Power Project (98-AFC-4C)**
Approval of Insignificant Project Change to Expand Construction
Laydown Area, etc.

Dear Mr. Lucas:

In accordance with the provisions of Title 20, California Code of Regulations, section 1769(a), California Energy Commission (Energy Commission) staff reviewed your petition dated December 17, 2001 requesting an expansion of the existing construction laydown, parking, and borrow areas, and relocation of a small segment of the new 15-mile water line. The request to modify Condition of Certification AQ-15 was already approved by the Energy Commission and, therefore, was not included in this review.

Staff determined that the petition met the criteria of section 1769(a)(2), and mailed the enclosed "Notice of Insignificant Project Change" to the Energy Commission's post-certification project mailing list on January 23, 2002. The Energy Commission did not receive any public comments regarding this requested project change within the 14-day public review period as specified in section 1769(a)(2). Therefore, your requested modifications are approved. If you have any questions, please call me at (916) 654-3864, or e-mail me at ntronaas@energy.state.ca.us.

Sincerely,

Nancy Tronaas
Compliance Project Manager
